

Quarterly Report Q2 2026

Amber Soft Ltd. – April to June 2026

Executive Summary

The second quarter of 2026 was the strongest quarter in the company's history. Revenue reached 1.21 million EUR, an increase of 23% year over year. Growth was driven mainly by CloudNest Backup, whose revenue grew by 41%. The number of active customers exceeded 2,300 businesses.

Revenue by Product

Product	Q2 2025	Q2 2026	Change
CloudNest Backup	490k EUR	690k EUR	+41%
Amber CRM	350k EUR	380k EUR	+9%
Implementation services	145k EUR	140k EUR	-4%
Total	985k EUR	1,210k EUR	+23%

Costs and Profitability

Operating expenses totalled 905k EUR. The largest items were salaries (560k EUR) and cloud infrastructure (170k EUR). Infrastructure costs rose by 35% due to the growing volume of customer data stored. EBITDA margin reached 25%, up from 19% a year earlier.

Customers and Team

We acquired 214 new customers during the quarter. Monthly churn fell to 1.8%, down from 2.6% in Q1 2026. Average revenue per customer increased to 175 EUR per month. Headcount grew from 62 to 71, with new hires joining mainly the backend and customer support teams.

Risks

The main risk is the delay of CloudNest Backup 3.0, which is our response to competitors offering continuous data protection. The second risk is rising energy costs in data centers, which could reduce margin by 2 to 3 percentage points in the second half of the year.

Q3 2026 Goals

Goals for the third quarter: launch CloudNest Backup 3.0, reach revenue of 1.28 million EUR, acquire 250 new customers, and evaluate opening a Frankfurt data center for customers who require data residency in Germany.
